

## Association Support

As a leading national and industry association, we support O\*NET, the Occupational Information Network. A major initiative of the United States Department of Labor, O\*NET is a database of occupation information, specifying job characteristics and worker skills and abilities.

O\*NET helps employers meet human resource challenges by identifying front line skill needs. It helps employees identify skills necessary to succeed in their fields, and helps job seekers understand the skills and training they need for the jobs they want.

We urge you to complete the O\*NET questionnaire. By providing this valuable information, you will help the O\*NET database capture the realities of the changing American workplace and be a participant in building a national labor exchange system able to compete in the international marketplace.
